They reject, as hardly worthy of their labours, the story of those smaller nations which have exercised no considerable influence on the fortunes or the progress of the human family. And their choice is at least intelligible. Les grands evenements et les grands hommes sont les points fixes et les sommets de l histoire; c est de la qu on peut la con-sidder dans son ensemble, et la suivre dans ses grandes voies. But the byways as well as the highways of the world teem with matter for the observer to watch, the moralist to study, the teacher to explain. The new discoveries, the new ideas, which have added dignity to man, have been elaborated at least as frequently in the cottage as in the palace; the struggle for existence, on which progress has depended, has been as acute and bitter in the village as in the town; and the writer who relates the story of a small community will usually find that its fortunes have been affected by the causes which have, influenced the progress of mighty empires. This circumstance has been illustrated in our own time by the selection which a great historian has made for the subject of a comprehensive history.
