Pub Date: 2013 Pages: 328 Language: Chinese in Publisher: Publishing House of Electronics Industry regular higher education 12th Five-Year Plan textbooks. electronic information science and engineering professional planning materials: MCS-51 microcontroller principle. interface and application to the MCS-51 microcontroller object. its structure and function. instruction set. assembly language and the C51 language program design. interrupt system and timer counter. parallel and serial memory extension technology. serial communication interface. display and keyboard interface technology. digital-to-analog and analog-to-digital converter interface technology. introduced the use of commonly used simulation software of Proteus and KeilC51 the Windows Integrated Development Environment Vision2 typical example for the carrier. will be compiled and C51 language corresponding introduction program design methods and design of the SCM system. Ordinary higher education 12th Five-Year Plan materials. electronic information science and engineering majors planning materials: MCS-51 microcontroller principle. interface and application the C51

### Reviews

*Definitely among the best book I have got possibly study. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Olga Ledner MD**

*Complete guide for publication enthusiasts. I have read and i am sure that i will going to study again once again in the future. Your way of life period will be transform once you total looking over this publication.*
