Transworld Publishers Ltd, United Kingdom, 2001. Paperback. Condition: New. Language: English . Brand New Book. The extraordinary and fascinating new book by the author of the award-winning bestseller *The Jigsaw Man* Forensic psychologist Paul Britton can walk through the minds of those who murder, rape, torture, extort and kidnap. He can see the world through their eyes and know what they re thinking. That is why the police have called on him to help with many high-profile criminal investigations and catch those responsible. How does he do it? Paul Britton s newest book, *Picking Up the Pieces*, reveals the psychological and forensic foundations upon which he has based his expertise. It is a remarkable journey into the darkest recesses of the human mind. From top security prisons and mental hospitals to ordinary outpatients clinics, Britton introduces us to his clinical and forensic work. A man turns into a werewolf at four o clock every afternoon. Another has built an electric chair in his basement to kill his father. A woman accepts the blame for abusing her child when she had nothing to do with it. How can they be helped? When Britton so accurately profiled the child killers of Jamie Bulger in Liverpool, or told police the true nature of Frederick and Rosemary West, he could do so because he had treated disturbed children and confronted sadistic sexual murderers in his consulting room. For twenty-five years Britton has interviewed, assessed and treated people with damaged or broken minds. Some were responsible for terrible crimes, others were stopped before it was too late. The answers aren t hidden at bloody crime scenes or in the post-mortem photographs. Instead, the truth is often locked away within someone s mind or deep in their past. *Picking Up the Pieces* is not a sequel...
