DEEP LEARNING WITH PYTHON (PAPERBACK)

Manning Publications, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. DESCRIPTION Deep learning is applicable to a widening range of artificial intelligence problems, such as image classification, speech recognition, text classification, question answering, text-to-speech, and optical character recognition. Deep Learning with Python is structured around a series of practical code examples that illustrate each new concept introduced and demonstrate best practices. By the time you reach the end of this book, you will have become a Keras expert and will be able to apply...

Reviews

This book is really gripping and interesting. Better than ever, though I am quite late in starting reading this one. It has been developed in an exceedingly easy way which is only right after I finished reading this ebook where basically modified me, alter the way I really believe.

-- **Cleveland Dibbert**

Very beneficial to all groups of people. I am quite late in starting reading this one, but better than ever. You will not really feel monotony at any time of the time (that's what catalogs are for relating to in the event you request me).

-- **Jacklyn Hoppe**
