Through the years, I have been able to help so many people get their finances in order. But realizing that there are so many people whom I will never personally encounter, I truly hope that this book will help to guide them. Many people never save because they simply do not know how. Hopefully, after reading the following pages, some of you will be inspired and more knowledgeable in managing your finances. My purpose in writing this book is to show you how easy it is to begin saving. Most of the methods you will read about here come from my personal experiences. My goal is to show you the best way to set up a budget, and how easy it is to do so. I will also show you what a simple budget will look like, including suggested prioritization. Finally, I will also show you how to get out of debt and stay out of debt.
